PROFESSIONAL EXPERIENCE

IndicoPlus

11.2025 - current

Frontend Developer

- Modernized legacy React code: migrated class components to functional components using Hooks and TypeScript
- Participated in the strategic migration of the old PHP (Laravel) backend to a modern .NET stack
- Created and maintained API contracts during the migration process (Swagger / OpenAPI), enabling seamless frontend operation despite the parallel existence of both old and new backends

Frontend Developer - freelancer

02.2024 - current

- I create responsive websites and e-commerce stores using Nextjs and CMSs such as Strapi.
- I managed projects independently, from gathering requirements to implementation, ensuring timely delivery.
- I implemented integrations with APIs: Strapi CMS and Stripe payment systems, which increased the functionality of websites.

Undicom.pl

07.2024-08.2024

Frontend Developer

- I designed and implemented responsive websites and e-commerce stores using HTML, CSS, JavaScript, and PHP, ensuring high code quality and compliance with modern web standards.
- I optimized user interfaces, ensuring intuitiveness and compliance with UX/UI heuristics.

Undicom.pl

05.2024 - 06.2024

Intern - Frontend Developer

EDUCATION

Zespół Szkół Techniczno - Informatycznych nr 1 w Gliwicach

2020 - 2025
